*Prime Design™ and Kargo Master racks not available for install on Wedge built Commercial Aluminum Units. DECKED is available for full-size short, full-size extra short and mid-size truck beds.

Prime Design™ ErgoRack® single rotation rack system

Operates safely from the rear of the vehicle

Easy ergonomic operation

Prime Design™
ErgoRack® single
rotation rack system
with step ladder
option

EASY DOES IT

The ErgoRack® by Prime Design is designed to minimize the physical stresses involved in loading and unloading heavy, bulky ladders. The single horizontal rotation positions ladders for easy access. ErgoRack® reduces lower back and shoulder stress by eliminating the need to step on the bumper or tailgate to access a ladder. The lightweight design is lighter than steel ladder rack solutions for improved gas mileage and savings. Lockable security feature reduces theft at the job site and on the road.
